

These are useful websites for parents/carers to access with their children whilst at home. Some of the names of the websites refer to resources for teachers. These websites are only included because they have useful resources that you can access quickly. The guidance is that you do not try to teach your child new skills but only continue to give them fun and educational experiences whilst they are at home in the current situation.

Websites for parents to access at home with pupils:

Week 4:

Maths primary and secondary- videos and work to match

<https://whiterosemaths.com/homelearning/>
