1	Management and Preventative Measures of Respiratory Infections	4	4	16	<p>Hand Hygiene:</p> <ul style="list-style-type: none"> We recognise that hand washing is one of the most important ways of controlling the spread of infections, especially those that cause respiratory infections Staff and students/pupils have access to liquid soap, warm water and hand drying facilities All staff and students/pupils will be advised to wash their hands after using the toilet, before eating or handling food, after playtime and after touching animals. Alcohol hand gel can be used if appropriate hand washing facilities are not available but will not replace washing hands <p>Respiratory and Cough Hygiene:</p> <ul style="list-style-type: none"> Spitting is discouraged. School actively promotes the “Catch it, Bin It, Kill It” campaign catch-bin-kill.pdf (infectionpreventioncontrol.co.uk) Staff and students/pupils with mild symptoms such as a runny nose, sore throat, or mild cough, who are otherwise well, will be advised they can continue to attend school as normal. Symptoms of COVID-19, flu and common respiratory infections include: <ul style="list-style-type: none"> ➤ continuous cough ➤ high temperature, fever or chills ➤ loss of, or change in, your normal sense of taste or smell ➤ shortness of breath ➤ unexplained tiredness, lack of energy ➤ muscle aches or pains that are not due to exercise ➤ not wanting to eat or not feeling hungry ➤ headache that is unusual or longer lasting than usual ➤ sore throat, stuffy or runny nose ➤ diarrhoea, feeling sick or being sick <p>Health protection in education and childcare settings - GOV.UK (www.gov.uk)</p>	4	2	8

					<ul style="list-style-type: none"> Children and young people who are unwell and have a high temperature will be advised to stay at home and where possible and avoid contact with other people. They can return when they no longer have a high temperature and they feel well enough. School reserves the right to refuse entry to any person who appears unwell with any of the common symptoms. PPE (disposable gloves, plastic aprons etc) is available when there is a risk of splashing or contamination with blood or bodily fluids during an activity. Relevant learning and teaching will be given to students/pupils regarding infection prevention and control <p style="text-align: center;">e-Bug England Home</p> <p>Ventilation</p> <ul style="list-style-type: none"> Adequate ventilation is provided whilst students/pupils and staff are on site. Outside doors may be partially opened in conjunction with heating systems to maintain a comfortable balance. We recognise the requirement to balance the need for increased ventilation while maintaining a comfortable temperature. <p>Cleaning</p> <ul style="list-style-type: none"> School has daily cleaning regimes and utilises cleaning products that are sufficient to remove the majority of germs that can cause disease. School utilises a colour coding cleaning system in different areas with separate equipment for kitchen, toilet, classroom and office areas (for example, red for toilets and washrooms; yellow for hand wash basins and sinks; blue for general areas and green for kitchens) to prevent risk of cross contamination. A nominated member of staff is responsible for monitoring cleaning standards. All cleaning solutions are stored in accordance with Control of Substances of Hazardous to Health (COSHH), and

					cleaning equipment is changed and decontaminated regularly.				
	Covid-19	4	4	16	<ul style="list-style-type: none"> Children and young people who are unwell and have a high temperature will be advised to stay at home and where possible, avoid contact with other people. They can return when they no longer have a high temperature and they feel well enough. If a child or young person has a positive COVID-19 test result, they will be advised to stay at home and where possible, avoid contact with other people for 3 days after the day they took the test as the risk of passing the infection on to others is much lower after 3 days if they feel well and do not have a high temperature. Children and young people who live with someone who has a positive test result will be advised to continue to attend as normal. Any members of staff who have a positive COVID-19 test result will be advised to stay at home for 5 days after the day they took the test. School reserves the right to refuse entry to any person who has tested positive or appears unwell with any of the common symptoms. Asymptomatic testing is no longer required in school. School will encourage participation in vaccination programmes. Students/pupils are no longer required to test unless advised by a medical professional. School will retain their stock of surplus LFD test kits until directed by the Local Health Protection Team. School will continue to utilise the DFE helpline for further advice on 0800 046 8687 if required. 	4	2	8	
	Outbreak Management	4	4	16	<ul style="list-style-type: none"> School has a supply of CO2 monitors so staff can quickly identify where ventilation requires improvement. In the event of an outbreak (2 or more cases), school (following advice from LHPT) may introduce enhanced or more frequent cleaning, to help reduce transmission. 	4	2	8	

No	Hazard	Initial			Existing Control Measures	Residual			Additional Controls
		Severity	Probability	Risk		Severity	Probability	Risk	
					<ul style="list-style-type: none"> School will review their Outbreak Plan and contact the Local Health Protection Team if multiple cases are present in school School are aware of any staff and students/pupils who may be vulnerable to Covid -19 (including pregnant staff) and will ensure suitable management plans are in place to support the individual.
